

BUUF Proposal to Endowment Committee and Fellowship - HVAC

This is a Proposal for replacing major HVAC components that are currently beyond their expected life span. By approving the request, we will have approval to replace HVAC components as needed due to failure or as BUUF members are willing and able. Jim Fuller has volunteered to provide removal and installation of components with other member assistance.

The equipment will be more energy efficient than the existing equipment and more reliable over the next decade. This will improve the BUUF sustainability profile.

Jim Fuller has obtained a quote for the HVAC replacement components from Johnstone Supply, BH, MI.

2 – Heat Pumps	
2 – Natural gas furnaces	
2 – 4-5 ton refrigeration case coils	
TOTAL	\$9573
