

BUILDER'S CHALLENGE: TOWN OF KINDNESS

RE attendees will build their own *Town of Kindness*, a place of utopia (for humans). Their town will be a complex, interconnected system based on social issues that exist in real life.

GOALS:

Raising awareness of societal issues:

What is the best way to address these issues - how do we build a utopia?

What is the reality of addressing these issues - how do we take our ideas into the real world?

Kid-led activism - individual activism & Buuf group activism.

SPECS:

- Build with any digital system of preference; Minecraft, Roblox or build non-digitally with Legos or other systems.
- Meet up on Zoom weekly to brainstorm and share struggles & resources. Sundays' @ 11:30 for 15-30min with a longer zoom at end of the month.
- Each week we'll ask 1 kid to talk about their town during service (20-90 seconds), can be a pre-recorded video.

OUTLINE OF PROGRAM:

1. Introduction
2. Environmental Challenges
3. Housing Accessibility
4. Transportation Accessibility
5. Food Insecurity
6. Education Accessibility
7. Healthcare Accessibility
8. Social Justice Challenges
9. Religious Diversity
