## Music Director's Annual Report.

Submitted by Beth La Fleur

I have served as BUUF's Music Director since October 2021. I took over the position following the resignation of the previous team of Gretchen Ohmann, Nan Lundeen and Candace Onweller.

Responsibilities I have carried out as music director (5 hours per week):

- Working with the minister and Sunday Services committee to choose appropriate music for Sunday Services.
- Selecting, downloading, editing, and creating video content for use in hybrid services.
- Communicating weekly with in-person accompanists and performers/singing groups/song leaders.
- Adding music selections to Order of Services.
- Filling in as needed as accompanist/song leader.
- I have also largely overseen running the hybrid services, including preparing digital content and editing/sharing service videos. I have also worked to train other tech support. (These responsibilities also covered under tech compensation)

Over the next year I hope to continue to expand our repertoire of familiar songs and also bring in some more varied musical talent from our own fellowship and the wider community. I want to make music something that improves the experience of Sunday worship for any who might attend.
